JUSTICE'S BLANES.—We now have a supply of almost every kind of blanks required by Justices of the Peace, which we sell at \$1.50 per hundred, large and small, as they ran. The cash must accompany all orders. Some of the blanks are of our own manufacture, but the greater part we have obtained elsewhere. Some of the office seekers of this vicinity, whose gapira

In short, they have been trying to organize a Grange. But they have discovered to their chagrin, that the people of this part of the country are too much en-lightened on the subject of political economy, to join this organization, whose members are a discontented set of hu-man beings, whose brains are not large enough to contain a sufficient amount of reason and indexesting. a sufficient amount of reason and judgement to show them the error of their ways; and whose leaders are composed of such men as marched from the humble city of Sever ance to the farmous Senate Halls of Topeka, Kansas, fire with an ambition that his ability, coupled with one of Un cle Sam's thousand dollar notes, would give him a balloon ascension to a seat in the Senate of the United States. The balloon was filled with the gas of some of our shrewd politicians, and exploded before it was completely filled tear-ing up the downy couch of the dignified Granger, and landing him in St. Louis, where he has not since her and we hope, after such indicrous results, that they will not persist any longer in trying to organize a Grange at this place, as the farmers of this community have enough good judgment to superintend their own affairs. There is a plain case near Brenner, of what a man gain by sending to St. Louis or some other foreign port for his reading matter. The individual is a man of good business furn, and always prompt, but takes no County paper. He had an idea that personal property tax would run to Macch list without penalty, but was aroused from this happy delusion by the appearance of a gaim officer, who had a bill of costs and penalty amounting to some seven dollars. He is now figuring to see how much he would have gained by taking a County paper at \$2 per annum.

Judge Blair organised a Grange in Beanville, on Tuesday evening of last week. They rejected the good old name of Beanville, and called it some hifalutin name like Spring Grove. This makes six Granges in Wayne Township Giving them a membership of 20 each, would make the or der number 120 souls in the Township. When Blair gets into a neighborhead, and once induces them to turn out, they are done for. He can talk Grange into any man liv ing, if he gets a chance. He is a clear, forcible, concisspecker, always saying enough, and then quitting. It was a fortunate choice when he was appointed Deputy.

HIGHLAND NURSERY.

BIGHLAND NURSERY, January 25, 1874. The subscriber again offers to the tree-planters of Doni-phan and adjoining Counties an extra choice lot of two and three-year-old Apple Trees. Having taken unusual pains in selecting my acious from bearing trees for the past three in selecting my acions from bearing trees for the past thro years, I can confidently recommend them. The experience of the farmers of this County has proved that some varie ties of trees are worthless for this soil and climate, and that others can hardly be overrated. The knowledge gain ed by the repeated trials and repeated losses of thousands of farmers in this part of Kansas, I endeavor to obtain by or infiners in this part of Adman, I make use of in grafting, personal acquaintance, and then make use of in grafting. I cannot raise as cheap trees nor so many of them as in the old way, but I can raise better enes. Again: I form the heads of these trees about 2; to 3 feet from the ground carefully trimming off all side shoots the first and second year, avoiding forks, and giving un'form heads of three to four branches each. I claim that one such tree, thus trained, and of a good variety, is worth a hundred two and three-story trees, that have been neglected in their earlies growth. I have 100,000 two and three-year-old trees ready for the market, and propose to sell the best at the very low price of \$10 per hundred. I will, as heretofore, exchange them for young cattle, corn and small grain. I have also a choice lot of No. 1 home-grown Hedge Plants for the

Business not Affected. The recent depression in business has not affected the passenger traffic of the St. Louis, Kansas City & Northern Short Line, as they continue to run six fast express trains. two more than any other line between the Missouri and Mississippi Rivers. This road enjoys great immunity from accidents, by reason of immense expenditures in the last two years, of over two million dollars, besides earnings, in wonderful improvements, in relaying their line with new steel and iron rails, on broad new ties, in new rolling stock supplied with all modern applicances for comfort and safety, and as another safeguard, employ night and day watchmen to inspect the road before and after the passage of each train, to see that everything is in order. Cousp cious among new improvements is the substitution for or dinary cars, of new reclining chair couches, elegantly car dinary cars, of new reclining chair coaches, elegantly carpeted and fitted with dressing rooms for ladies, gentlemen
